TO ALL OUR VALUED CLIENTS

NOTICE OF FUEL SURCHARGE DECREASE

As you may be aware, the cost of diesel fuel has fallen over the past month, and we are now in a position to reduce our fuel surcharge to clients.

For the month of March 2009, our fuel surcharge will decrease to 8.0% for all transport movements. Also, please note the following :

- Our transport rates are unchanged at this stage. Only our fuel surcharge is decreasing.
- The next fuel levy review will be at the end of March 2009
- The fuel surcharge will continue to apply only to transport movements
- The decrease will apply to all orders received by WGPS from 2 March inclusive onwards.

Please be assured that we will continue to provide you with the highest possible level of service, and that we will continue to monitor diesel fuel prices, increase our fuel surcharge only when absolutely necessary, and reduce it at the first available opportunity.

If you have any questions on this, please call me.

Regards

Luke Duffy
